

CHECKLIST FOR

Water Heating ESC/STC installations

All participating installers (including **plumbers AND electricians**) must be inducted into the program **BEFORE** completing installations.

All companies must supply current **public liability insurance** (CoC).

If you have not completed the induction, please contact us.

All photos must be taken with the app. Location services must be enabled on your mobile device and app to ensure all photos are geo-tagged and time stamped.

Photos via phone app

ORIGINAL UNIT

- ☐ Old installed still in place before removal
- ☐ Old Unit compliance label (even if unreadable)
- ☐ Old existing system unit decommissioned (e.g. drill hole in tank, wires cut)
- ☐ Evidence of removal of original unit (geotagged photo showing unit in the back of van/at recycler or a recycling receipt)

NEW UNIT

- ☐ Photo of the unit completed and installed (according to AS/NZS 3500.4 section 8.2.1?)
- ☐ New unit compliance label showing model & serial number (for split heat pumps a photo of the label on both the tank & condenser) to be supplied.
- ☐ Photographic evidence of the new compressor unit
